PRINTED PHARMACY BAGS

Printed Paper Bags

Custom-printed paper bags are a great marketing tool for pharmacies and can be used to promote branding, services and contact details. Paper bags also provide significant environmental benefits through their biodegradability and use of renewable resources. Because they are recyclable, paper bags will break down naturally within a few months of being disposed, which reduces the risk of long-term pollution and minimizes their impact on landfills.

Not just a bag....

Dispensary paper bags are more than just a bag to package and transport medications and other pharmacy items. Dispensary paper bags offer the pharmacy a means to protect the privacy of its customers when collecting medication. The opaque nature of paper bags offers a respectful and secure way to handle personal health products for your customers.
